

Introduction

Launching a blog can be exciting — and overwhelming. This simple checklist helps you go from idea to live blog in a few clear steps. Whether you're starting with WriteLux or WordPress, use this guide to build a blog that's inspiring and ready for growth.

PHASE 1: PLAN YOUR BLOG

- Choose your niche (what topic will you write about?)
 - Define your target audience (who are you writing for?)
 - Pick a blog name that's short, memorable, and meaningful
 - Check domain name availability (use Namecheap or GoDaddy)
-

PHASE 2: SET UP YOUR BLOG

- Choose a blogging platform (e.g., WordPress, WriteLux, Blogger)
 - Buy your domain (e.g., yourblog.com)
 - Choose a hosting provider (e.g., Bluehost, Hostinger)
 - Connect your domain to your blog platform
 - Install a professional theme or template
 - Add a logo and header image
-

PHASE 3: CREATE YOUR CORE CONTENT

- Write your “About” page — share your story and mission
- Write your “Contact” page
- Create your first 3 blog posts (keep them helpful and engaging):

- Introduction or Welcome Post
 - A How-To Guide
 - A List or Tips Article
-

PHASE 4: PREP FOR LAUNCH

- Install Google Analytics (to track your visitors)
 - Add social media links and sharing buttons
 - Create a basic email opt-in form
 - Create a blog post schedule (e.g., 1 per week)
 - Proofread and test your site on desktop & mobile
-

PHASE 5: LAUNCH & PROMOTE

- Publish your blog posts
 - Share on social platforms (Facebook, Twitter, Pinterest)
 - Tell friends/family — word of mouth helps!
 - Submit your site to Google Search Console
 - Join blogging communities for support & visibility
-

Bonus Tools & Resources

Tool	Use Case
Canva	Design graphics, logos
Grammarly	Fix grammar and tone

Notion	Organize content plans
Unsplash	Free images for blog
Google Docs	Draft and write posts
ChatGPT	Brainstorm blog ideas

Final Tips

- Done is better than perfect
 - Focus on helping, not impressing
 - Keep writing, keep improving
-
